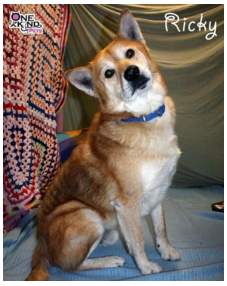
Hi there! I'm Ricky :) I can't wait to meet you! I love people. I'm a very happy dog, and for the most part I'm confident, but I'd be even more confident once I found a comfortable home. I've had it rough, but I'm so lucky I came across One of a Kind Pets because they cured my dermatitis and I feel so much better! Most of my hair has grown back beautifully... my backside is a little thin and they're not sure if that will get any thicker but I don't care, it reminds me of how far I've come :)

I have hardly any problems, just the normal things you could expect from any dog. You'll have to teach me a couple manners to adjust to your/our home. I sit to receive my food, and when I'm walked properly, I walk right next to you. I really want to impress you, and I'm a loving adult.


Even though I'm all grown up, I still need exercise. I would love a home that could take me on walks, play in the yard, and maybe even go on hikes! These are all things that would help us bond and the more we bond, the faster I'll adjust to home-life. I'll be waiting at the shelter to meet you :)
